

SUMMARY

Passionate MERN Full Stack Developer with hands-on experience building 5+ Real world full-stack applications including e-commerce, job portal, and video streaming platforms. Completed intensive training at NxtWave and gained 6 months of internship experience, developing scalable applications using React.js, Node.js, Express.js, and MongoDB. Skilled in RESTful API development, JWT authentication, and responsive UI design. Eager to contribute to dynamic development teams as an Full Stack or Software Developer.

SKILLS

- Programming Languages:** Python, JavaScript (ES6+), C
- Frontend Development:** React.js, HTML5, CSS3, Responsive Design, Bootstrap, Tailwind CSS, Flexbox/Grid
- Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication
- Databases & Querying:** SQL (Joins, Subqueries, Aggregations), MySQL, SQLite, MongoDB
- Version Control:** Git, GitHub
- Core Concepts:** Object-Oriented Programming (OOP), API Integration, React Hooks, Data Stuctures & Algorithm (DSA)
- Soft Skills:** Communication, Problem-solving, Collaboration, Adaptability, Time Management

WORK EXPERIENCE

NxtWave	
MERN STACK DEVELOPER TRAINEE	Apr 2025 - Apr 2026
- Gained technical confidence through intensive, hands-on full stack projects and thousands of coding challenges - Completed 5+ industry-aligned projects, including full-stack clones, demonstrating the ability to build and deploy real-world applications.	
InLighnX Global	
FULL STACK DEVELOPMENT INTERN	Nov 2025 - Feb 2026
- Designed responsive 8+ web applications with improved UI/UX - Enhanced performance and reduced load time through optimized code	
DEVTOWN	
FULL STACK WEB DEVELOPER INTERN	Sep 2022 - Dec 2022
- Built responsive web apps using HTML, CSS, and JavaScript for seamless mobile/desktop UI. - Gained hands-on experience in full-stack development lifecycle	

PROJECTS

- HireSync – Interview Scheduling Application - <https://hire-sync-kohl-six.vercel.app/>**
 - Developed a full-stack interview scheduling platform with panelist and candidate availability management.
 - Implemented matching slot logic, interview scheduling, conflict detection, and status tracking features.
 - Designed and implemented RESTful APIs using Express.js and SQLite, handling interview scheduling workflows, data validation, and status management.
 - Created responsive ReactJS dashboards with real-time API integration and deployed the application using Vercel and Render.
- StreamTube – Video Streaming App (YouTube Clone) - <https://streamtube.ccbp.tech/>**
 - Built a responsive video streaming web app using React with multiple routes like Home, Trending, Gaming, and Saved Videos.
 - Implemented JWT-based authentication and protected routing for secure user access.
 - Integrated REST APIs to fetch videos with search, loading, and error handling features.
 - Implemented interactive features including Like, Dislike, Save, Light/Dark Modes and secure logout with session handling
- Nxt Trendz E-commerce Cart System (React) - <https://mynxttrendapp.ccbp.tech>**
 - Developed a fully functional e-commerce cart system using React Context API for global state management
 - Implemented optimized cart logic to prevent duplicate entries by updating product quantities dynamically
 - Built increment/decrement functionality with automatic item removal at zero quantity
 - Designed real-time cart summary with total price and item count calculations
 - Secured cart access using protected routes with JWT-based authentication
- Twitter Clone Backend - NxtWave**
 - Developed RESTful APIs for managing users, tweets, likes, and replies
 - Secured endpoints using JWT authentication and custom middleware for controlled data access
 - Designed and optimized relational database schema using SQLite to manage entity relationships efficiently
 - Engineered full CRUD operations across multiple modules, ensuring seamless data flow and integrity

EDUCATION

UCSI University	Kuala Lumpur, Malaysia
Bachelor of Electronics Engineering (Communication)	Sep 2019 - Dec 2024
